1. Qualitative Information on Quarterly Results

(1) Explanation of operational results

We sincerely apologize for the significant inconvenience and concern caused to our valued customers who have suffered health issues, as well as to our shareholders and all other stakeholders surrounding our company, in relation to our *benikoji*-related products. The Company is sincerely committed to compensating customers who have developed health problems, and continue making every effort to prevent recurrence of the incident and restore trust.

During the first three-month period of the consolidated fiscal year (January 1, 2025 to March 31, 2025), economic activity resumed in many countries, and the number of people moving across countries and regions showed an upward trend along with the lessening of the number of new COVID-19 cases. However, in addition to rising geopolitical risks, there were concerns about a slowdown in consumption due to soaring raw material prices and higher energy costs. Accordingly, the outlook for the business environment surrounding the Kobayashi Pharmaceutical Group continued to remain uncertain.

As a result, net sales, operating income, ordinary income, and net income attributable to owners of the parent were 32,607 million yen (-10.6% year on year), 2,535 million yen (-49.6% year on year), 2,401 million yen (-56.0% year on year), and 1,624 million yen (+66.5% year on year), respectively.

Business results by segment were as follows.

Domestic Business

In the Domestic Business, the Company launched 15 new products in the spring, and another 17 in the fall, of 2024. The products that contributed to growth in sales were *Hipcure* (an ointment for rash, eczema, etc. on the buttocks), *Sawaday+ &Emotion* (a functional air freshener with fragrances formulated to stabilize emotions), *Shoshugen ZERO* (an unscented deodorizer that effectively removes 10 major unpleasant household odors without masking them with fragrances), and *Curerea Dry* (a drug to cure recurring skin troubles due to a weakened skin barrier function, such as dryness, roughness, and inflammation of the face, that works from within).

In addition, as the number of foreigners visiting Japan increased, demand for products from inbound tourists rose, contributing to sales growth.

However, the Company suspended advertising of all of its products from March 22, 2024 after it announced a voluntary recall of benikoji-related products. As a result, sales of healthcare products, in particular, declined. On the other hand, sales of household products, especially led by deodorizing air fresheners, grew despite the suspension of advertisements. Thanks to lower temperatures from January to March 2025, sales of body warmers increased. Furthermore, in the Direct Marketing Business, sales decreased due to an increase in the cancellation of regular subscriptions.

Consequently, the Company reported net sales of 23,537 million yen (-12.9% year on year) and segment income of 2,541 million yen (-34.0% year on year).

Net sales included inter-segment sales or transfers, which totaled 870 million yen in the first three-month period of the previous consolidated fiscal year and 766 million yen in the same period of the current consolidated year.

International Business

In the International Business, the Company markets body warmers, *Netsusama Sheet* (a cooling gel sheet for the forehead), and *Ammeltz* (an external anti-inflammatory), mostly in the United States, China, and Southeast Asia, and sought to expand sales by aggressively investing principally in advertising and sales promotion.

In the United States, as temperatures from January to March 2025 were lower than those during the same period in 2024, sales of body warmers grew. Furthermore, Focus Consumer Healthcare, LLC, which we acquired in 2023, launched new products of nutritional supplements and OTC pharmaceuticals. In

addition, growth in sales, driven by positive foreign currency translation effects, led to an increase in net sales.

In China, the Company experienced a decline in sales. This was due to a smaller number of influenza patients with fever compared to previous years, resulting in reduced demand for *Netsusama Sheets*.

In Southeast Asia, net sales decreased due to a shift in shipment timing and a sluggish demand for *Netsusama Sheet* in reaction to the sales growth driven by the prevalence of infectious diseases in the last year.

As a result, net sales and segment income were 10,091 million yen (-5.1% year on year) and 0 million yen (-100.0% year on year), respectively.

Net sales include inter-segment sales or transfers, which totaled 439 million yen in the first three-month period of the previous consolidated fiscal year and 382 million yen in the same period of the current consolidated year.

Other

Businesses in this segment include the transportation business, the manufacture and sale of plastic containers, real estate management, and advertising planning and production. The companies in this business segment operate individually on a financially independent basis, and their delivery prices of materials and services were reviewed and revised as necessary.

As a result, net sales and segment income were 1,425 million yen (-15.1% year on year) and 36 million yen (-65.4% year on year), respectively.

Net sales include inter-segment sales or transfers, which totaled 1,520 million yen in the first three-month period of the previous consolidated fiscal year and 1,298 million yen in the same period of the current consolidated year.

(2) Explanation of financial position

Total assets decreased by 13,616 million yen from the balance as of the end of the previous consolidated fiscal year to 251,752 million yen. This was attributable mainly to an increase of 1,532 million yen in cash and deposits, a decrease of 16,808 million yen in notes and accounts receivable-trade, and a rise of 2,877 million yen in merchandise and finished goods.

Liabilities fell by 7,203 million yen from the balance as of the end of the previous consolidated fiscal year to 44,693 million yen. This was attributable mainly to a decrease of 7,453 million yen in accounts payable-other.

Net assets declined by 6,413 million yen from the balance as of the end of the previous consolidated fiscal year to 207,058 million yen, bringing the shareholders' equity ratio to 82.0%. This was attributable mainly to a decrease of 2,761 million yen in retained earnings and a fall of 3,258 million yen in foreign currency translation adjustment.

(3) Explanation of future forecast information, such as forecast of consolidated results

The Group did not revise its forecast of consolidated results for the fiscal year ending December 31, 2025, which it announced via the Summary of Financial Statements for the Fiscal Year Ended December 31, 2024 released on February 10, 2025.

(Contingent liabilities)

After receiving reports that customers who ingested *Benikoji CholesteHelp*, a functional food product it marketed, developed health problems, Kobayashi Pharmaceutical has continued recalling the product and benikoji raw materials (manufactured by the Company). A component analysis identified the presence of puberulic acid, which has nephrotoxicity, in a certain benikoji raw material lot. The Company has been providing compensation to customers who developed health problems from ingesting *Benikoji CholesteHelp*, etc.

In the light of the current situation, the Company has recorded expenses within a reasonably estimated range at present as a provision for product recall-related losses. The expenses include mainly (1) expenses for recovering benikoji raw materials for business partners and (2) expenses related to compensating customers who developed health problems. However, with respect to expenses that cannot be reasonably estimated at present—those arising from unforeseen disclosures or legal actions by business partners and customers—the Company is currently unable to determine the total amount, and additional costs may be incurred.

- (1) Expenses for recovering benikoji raw materials for business partners Kobayashi Pharmaceutical directly marketed benikoji raw materials to 52 business partners, who sold them to domestic and international customers. These Kobayashi Pharmaceutical Group business partners
 - have been recovering benikoji-related products. The Company requested them to gather information related to the product recall. Based on information regarding the expenses for recovering benikoji-related products individually collected from its business partners, the Company estimated and recorded the cost of a product recall that it may incur in the future within a reasonably estimated range.
- (2) Expenses related to compensating customers who developed health problems
- In accordance with the compensation policy and compensation details outlined in the press release titled "Compensation for customers who have experienced health issues due to consuming Kobayashi Pharmaceutical's *Beni-koji CholesteHelp* and other products," dated August 8, 2024, Kobayashi Pharmaceutical has been providing compensation to affected customers, including coverage for medical and transportation expenses, consolation payments, and compensation for lost wages and residual disability. Based on the status of outpatient visits and hospitalizations, as well as the unit prices used to calculate consolation payments, and compensation for lost wages and residual disability, etc., the Company has estimated and recorded compensation expenses that it may incur in the future within a reasonably estimated range.

(Notes on quarterly consolidated statement of income)

In the first three-month period of the consolidated fiscal year, the Company recorded expenses for recovering benikoji-related products and expenses related to the product recall as an extraordinary loss of 688 million yen for recall-related losses. The product recall-related losses mainly consist of the recovery of benikoji raw materials for business partners and compensation to customers who developed health problems.

 - (4) Date of incorporation: November 21, 1969 (founded on July 11, 1925)

2. Reasons for the closure

In 2019, Kobayashi Pharmaceutical acquired shares of Meitan Hompo, which manufactured and sold products containing ume extract (hereinafter, "Meitan Hompo's products"), making it a group company. Thereafter, the Company relocated its benikoji raw material manufacturing facilities to the Kinokawa Plant as part of its efforts to optimize the management resources of its group companies. However, as a result of the benikoji-related products recall case, the Company announced its withdrawal from the Benikoji business in August 2024. Furthermore, Meitan Hompo has suspended the operation of the Kinokawa Plant and sales of its products. Under the situation, in light of a reassessment of the growth potential and profitability of the manufacturing and sales businesses of Meitan Hompo's products, along with the associated investments required therefor, the Company concluded that there is currently no clear business outlook. Consequently, it resolved to continue to suspend the sale of Meitan Hompo's products for a while. Accordingly, there is no prospect for resuming operations at the Kinokawa Plant, which is a dedicated manufacturing facility for Meitan Hompo products, and the Company decided to close the site.

Following the suspension of operations, Kobayashi Pharmaceutical will communicate sincerely with all stakeholders associated with the Kinokawa Plant, and will provide individualized support to each employee to help them succeed both within and outside the Company.

On the other hand, the Company has received inquiries from some customers regarding the resumption of sales of Meitan Hompo products. In addition to carefully evaluating the potential of ume as an ingredient, it will consider the possibility of introducing new products in the medium to long term.

3. Schedule for the closure

April 14, 2025: Resolution by the board of directors of Kobayashi Pharmaceutical June 30, 2025: Closure of the Kinokawa Plant (planned)

4. Impact on business results in the future

The impact of the plant closure on Kobayashi Pharmaceutical's consolidated financial results is expected to be minimal. If any matters requiring disclosure arise in the future, the Company will disclose them promptly.
