Our response to the situation in Ukraine

Kobayashi Pharmaceutical Co., Ltd (HQ in Osaka; President - Akihiro Kobayashi) has decided to donate €200,000 to UNHCR, the UN Refugee Agency, to provide humanitarian aid to refugees in Ukraine and surrounding areas.

We also plan to cooperate with Osaka Prefecture, with which we have concluded a comprehensive cooperation agreement, to provide employment support to those who have fled to Japan.

Kobayashi Healthcare Europe Ltd., the UK subsidiary of the Kobayashi Group, is providing warmers through a UK volunteer organization.

The Kobayashi Group expresses its heartfelt sympathy to the people who are facing difficulties in Ukraine and the surrounding areas, and hopes that they will be able to return to a safe and peaceful life as soon as possible.

We will continue to monitor the situation closely and provide humanitarian assistance where possible.
